SUMMARY

Innovative and results-driven Software Engineer with 2+ years of experience in full-stack development, specializing in JavaScript, React, and Node.js. Proven track record of improving system performance and enhancing user experiences. Seeking to leverage expertise in a challenging software engineering role at a forward-thinking company.

TECHNICAL SKILLS

Javascript, Typescript, Node.js, Express, Apollo GraphQL, React, Redux, HTML, CSS, PostgreSQL, Sequelize, Cloud Firestore, RESTful APIs, Next.js, AWS(Cloudfront, SQS, SNS, S3), Git, Agile Development, Communication, Code Review

PROFESSIONAL EXPERIENCE

Software Engineer, Bounty, <https://www.bounty.co>

March 2022 - June 2023

- Led development of key projects within a large monorepo using TypeScript, ApolloGQL, React, and Next.js.
- Designed and enhanced UI components for mobile and web, contributing to an internal library
- Designed and built internal tools for Operations and Customer Support teams that streamlined processes for customer requests resulting in a 60% improvement in customer response rate.
- Developed a customizable storefront builder used by over 20 brands, increasing engagement and sales.
- Promoted a high-quality testing culture with unit and end-to-end tests, reducing bugs and improving efficiency.

Psychometrician, Comprehensive Consultations Psychological Services

February 2019 - January 2021

- Analyzed and reviewed between 2-3 complete neuropsychological and psycho-educational patient testing a day
- Supervised assistant psychometricians and interns, scheduled meetings and devised weekly and monthly goals
- Collaborated with clinical staff and patients to develop 4-5 comprehensive reports per week.

Research Assistant, NYU College of Dentistry

January 2018 - January 2019

- Conducted 3D printing, microCT imaging, nano-indentation and prepared polished specimen samples
- Presented monthly on relevant research using quantitative analysis and creative visuals
- Maintained between 5-10 cell lines used by other members of the lab team.

PROJECTS

Scrapplr | *Full Stack Developer* | <https://scrapplr.web.app/>

April 2021

A progressive web application for scrapbooking. Upload photos, add views from Google Places and generate a map of all visited locations.

- Developed a progressive web application for scrapbooking using React and Grommet UI.
- Built a real-time database in Cloud Firestore to handle user updates
- Integrated Google Maps, Places, and Geolocation APIs for dynamic content.

Cafe Code Brew | *Sole Developer* | <https://cafe-code-brew.herokuapp.com>

March 2021

A virtual, personalizable cafe experience.

- Created an interactive virtual cafe experience using React, Node.js, and Semantic UI.
- Integrated Yelp API for real-time cafe data and user reviews.

EDUCATION

Grace Hopper Program at Fullstack Academy, New York, NY

December 2020 - April 2021

Certificate in Software Engineering

- 17-week women+ program with acceptance rate of less than 8%. Designed for 1000+ hours focused on JavaScript, Node.js, Express, Sequelize, React, data structures and algorithms.

Binghamton University, Binghamton, NY

August 2013 - May 2017

Bachelors of Science in Integrative Neuroscience

Honors/Awards: Dean's List: 2013 - 2017 TRIO Scholar, Chi Alpha Epsilon National Honor Society (XAE)
