Passionate full-stack developer focused on scalable solutions, teamwork, and continuous improvement.

TECHNICAL SKILLS

Javascript, Typescript, Node.js, Express, Apollo GraphQL, React, Redux, HTML, CSS, PostgreSQL, Sequelize, Cloud Firestore, RESTful APIs, Next.js, AWS(Cloudfront, SQS, SNS, S3), Git, Agile Development, Communication, Code Review

PROFESSIONAL EXPERIENCE

Software Engineer, **Bounty |** bounty.co   March 2022 - August 2023

- Spearheaded development of critical projects in a large monorepo using TypeScript, ApolloGQL, React, and Next.js.
  - Engineered and optimized 25+ reusable UI components for mobile and web, enhancing an internal library, which reduced development time by 40%.
  - Instituted a robust testing culture with 100+ unit and end-to-end tests, decreasing bug incidence by 50% and increasing deployment confidence.
- Architected and implemented internal tools for Operations Teams, streamlining customer request processes.
  - Developed a request tracking system that reduced response times from 2 days to 4 hours, achieving a 60% improvement in response rates, which led to a 25% increase in customer satisfaction scores.
- Created a customizable storefront builder using React and Next.js, adopted by over 20 brands.
  - Designed dynamic, brand-specific brand storefronts, driving a 30% increase in brand engagement and a 25% rise in sales, contributing to a 15% overall revenue growth in the quarter following implementation.

Psychometrician, **Comprehensive Consultations Psychological Services**   February 2019 - January 2021

- Analyzed and reviewed 2-3 complete neuropsychological and psycho-educational patient tests daily, ensuring accurate diagnosis and treatment planning.
- Supervised a team of assistant psychometricians and interns, scheduling meetings and devising weekly and monthly goals, which improved team efficiency by 30%.
- Collaborated with clinical staff and patients to develop 4-5 comprehensive reports per week, enhancing patient care and treatment outcomes.

PROJECTS

Scrapplr | *Full Stack Developer* **|** scrapplr.web.app   April 2021

A progressive web application for scrapbooking. Upload photos, add views from Google Places and generate a map of all visited locations.
- Architected and developed a progressive web app using Javascript, and React, and styled with Grommet UI.
- Engineered a real-time database using Cloud Firestore, reducing data synchronization latency by 50% .
- Integrated Google Maps, Places, and Geolocation APIs for dynamic content.

Cafe Code Brew | *Sole Developer* **|** cafe-code-brew.herokuapp.com   March 2021

A virtual, personalizable cafe experience.
- Designed and deployed an interactive virtual cafe using React, Node.js, and Semantic UI,
- Integrated Yelp API for real-time cafe data and user reviews.

EDUCATION

Grace Hopper Program at Fullstack Academy, New York, NY   December 2020 - April 2021

Certificate in Software Engineering
- Completed 17-week software engineering program specializing in fullstack web development.

Binghamton University, Binghamton, NY   August 2013 - May 2017

Bachelors of Science in Integrative Neuroscience
- Honors/Awards: Dean's List: 2013 - 2017 TRIO Scholar, Chi Alpha Epsilon National Honor Society (XAE)
